

## **Assembly Bill No. 729**

### **CHAPTER 664**

An act relating to water.

[Approved by Governor October 9, 2001. Filed with  
Secretary of State October 10, 2001.]

#### **LEGISLATIVE COUNSEL'S DIGEST**

AB 729, Kehoe. Replacement Pier and Dredging Project: waste discharge permit fee waiver.

The Porter-Cologne Water Quality Control Act requires specified persons discharging waste, or proposing to discharge waste that could affect the quality of the waters of the state, to submit reports to regional water quality control boards with respect to that discharge, accompanied by specified fees. Existing law requires waste discharge permit fees to be deposited in the Waste Discharge Permit Fund, which is used, upon appropriation, for purposes of carrying out the act.

This bill would prohibit the State Water Resources Control Board and any regional water quality control board from imposing a fee in connection with prescribing waste discharge requirements for the Replacement Pier and Dredging Project, United States Naval Station, San Diego, Milcon Project P-326.

*The people of the State of California do enact as follows:*

SECTION 1. Notwithstanding Section 13260 of the Water Code, or any other provision of law, the State Water Resources Control Board or a regional water quality control board may not impose a fee in connection with prescribing waste discharge requirements for the Replacement Pier and Dredging Project, United States Naval Station, San Diego, Milcon Project P-326.
